(Stay for the weekend for
more events in town!)

PROGRAMME OF THE ANTI-FRONTEx DAYS 2015

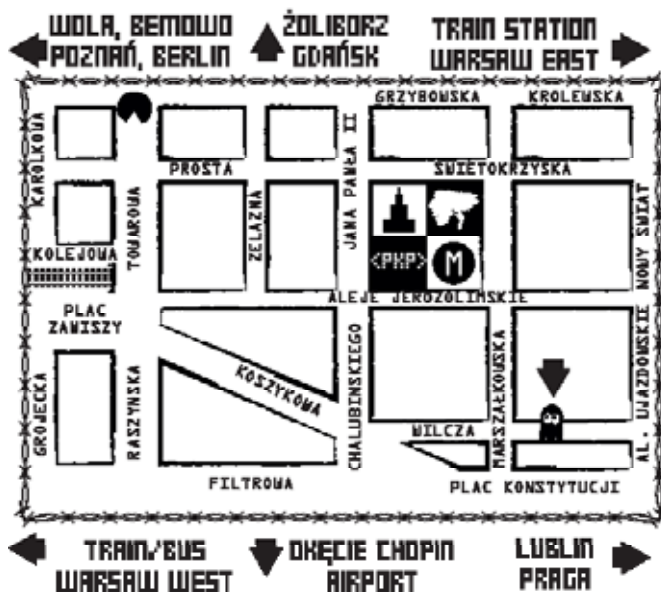

This year commemorates the 10th anniversary of founding FRONTEX - the EU agency responsible for the Schengen Zone's external borders. For us - antiracists, migrants and solidarity activists, FRONTEX is an obvious symbol of the 'European Fortress' policy - murders on the Mediterranean Sea, detention camps, deportations, investments in unmanned machinery for enforcing the border regime. The Frontex HQ is placed here in Warsaw, and on May 21 the Schengen Zone officials are expected to celebrate here.

The Anti-Frontex Days are planned as a networking event, an opportunity for collective actions, as well as a manifestation of resistance to exploitation and xenophobia. On Wednesday, we would like to exchange experiences and ideas with refugees and friends of refugees from different countries. We hope for this conference to produce a memorandum in the name of all its participants. On Thursday, we want to march through Warsaw in demonstration commemorating the victims of FRONTEX, supporting struggling refugees worldwide, and showing solidarity beyond borders!

**NO TO SYSTEMIC RACISM & FASCISM!
